<b>Google Reviews:</b>	<b>Vitals.com; Mixed reviews:</b> (1/25/16) "My mother is a patient of his and she literally walks around like a zombie. She has been hospitalized multiple times with falls and for being over medicated so instead of lowering her dosages he doubled them. There is no way he could actually be her doctor and not realize what's going on. Everybody in town who is hooked on pain and anxiety meds are his patients. So if you want to become a full blown drug addict he's the man to see." "I have never been a patient of his but know of several that were given mass amounts of pain medications, and needed Detox after leaving his office. I know this because I was in a relationship for several years with one of his patients and he had been receiving pills as young as 18 for pain he never had!" "If you want to be Unwittingly turned into a drug addict then mess up 1 time like a drug addict then get dropped, hooked on Oxy's then this is your Doctor. Dont even beg for help or a referral for drug rehab or detox because they will ignore you and left to die!" <a href="http://www.vitals.com/doctors/Dr_Frank_Veres/reviews#ixzz3zmGOX3Bc">http://www.vitals.com/doctors/Dr_Frank_Veres/reviews#ixzz3zmGOX3Bc</a>
